ING CONTROLS, INC.

THE GUTTMAN ENERGY FLEET FUEL CARD

No Fees. No contracts. Just customer service
made simple and the open road ahead of you.

GUTTMAN ENERGY

CUSTOMIZE YOUR FLEET FUEL CARD

It pretty much solves everything

No two fueling operations are quite the same. That's why Guttman Energy customizes each Fleet Fuel Card, so you gain maximum benefits for your energy needs. We offer peace of mind with our comprehensive fraud protection, and if your credit limit is reached, we won't cut off your card like a bank would. Even our IFTA data reporting program simplifies and personalizes your information. Bottom line, we strive to create a fueling experience that lets you fuel smarter, safer, and on your terms – not ours.

CUSTOMER SERVICE

Made Plain and Simple

Designed with trucking fleet managers in mind, our Fleet Fuel Card program prioritizes customer satisfaction every step of the way. From the beginning, Guttman Energy puts you in touch with a real person, and you'll stay in contact with the same representative every time you need us. Your Guttman representative is always accessible to solve problems and answer questions. If any issues arise after the fact, we're flexible about that too – we'll work with you to create the program that you need.

ON-ROAD FUELING

Easily managed

Accepted at over 65,000 service stations, truck stops, and fueling centers across the country, Guttman Energy's Fleet Fuel Card is the only card your fleet will ever need. For starters, you'll never pay a fee. There are no up-front or hidden payments. We won't even charge you for replacing a lost card. Once you try us, we're confident you'll stay with Guttman Energy— but you're free to drop out, any time. No restrictions. No penalties. No surprises.
